60ml

Nano-emulsified oil particles
gently support your
skin's barrier function

Leave the skin of
moist state for a long time

Luxurious formulation
of a diverse variety

Aging care with a thick serum

that gently cloaks the skin of being
sensitive with fluctuate condition.

Every corner of your dry, hardened skin will be
filled with moisture, making it soft.

The moisturizing power is as much as you could ask for, too!

Just by applying this serum after your face-washing routine, you can make your skin
firm, shiny, and moist. Make your skin even more healthy and beautiful than it is
now, and treat factors that can make you look old.

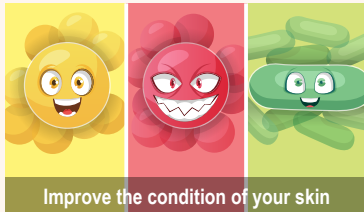

**Flora creates present and future beauty.
With Flora, you will love your natural skin.**

Originally, Skin has the power to heal itself to protect it from dryness and irritation, and the power to repair the damaged parts by external stimuli and regenerate it into a healthy state. "Flora" was developed with the aim of approaching the natural power of the skin, drawing out the original power and regaining the balance. In addition, the effect of the material itself enhances the natural healing power while caring for the skin, so that is a skin care series which is gentle on the skin and can be used safely by people with dry or sensitive skin with less irritation, which is fragrance-free, color-free, and contains high-quality naturally-derived ingredients for low irritation.

3 Features

Parunos Flora Refining Essence

Point 1

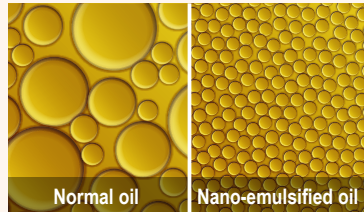

Improve the condition of your skin

Improve the condition of your skin while maintaining your skin's balance of common bacteria

Pre-Biotic ingredients (Oligosaccharides, Fermented lactic acid bacteria extract) promote the cultivation of a good bacteria for beautiful skin, allowing you to thoroughly protect your skin from fluctuated condition while keeping your skin's balance of common bacteria. This product keeps your skin moist, leading to soft skin.

Point 2

Normal oil

Nano-emulsified oil

Nano-emulsified oil particles gently support your skin's barrier function and give the moisture into your skin that tends to be deficient.

Nano-emulsification allows tiny oil particles to penetrate through the outer layer (cuticle) of your skin. This keeps your skin moist for a long time while protecting your skin from external irritants. Skin-beautifying ingredients further more support moisturization and barrier function.

Point 3

Morus alba root extract

Paeonia albiflora root extract

Saxifrage sarmentosa extract

This product luxuriously formulation has a diverse variety from skin-beautifying ingredients such as ceramides with high moisturizing and protective power; phosphate fatty polymers that are also used in eye medicines, which are about twice as effective moisturizers than Hyaluronic acid; Squalane, Dimer dilinoleic acid etc. as emollients, and other natural oils and botanical extracts including Morus alba root extract (mulberry extract), Paeonia albiflora root extract and Saxifrage sarmentosa extract, which leads to smooth, beautiful skin, treating a variety of aging skin problems such as dryness, lack of firmness, and dullness.

✓ Safe for your skin
